REPORT OF CHIEF ENGINEER.

During the year ending March 1, 1891 there have been the following fires and alarms : March 16, alarm at Union Block, no damage ; March 31, Lenvin's tenement house burned, loss estimated at fifteen hundred dollars ; May 13, Jarvis Mill, entirely destroyed, total loss ; Sept. 14, small store house at West Claremont, property of Jarvis estate, burned, department not ordered out and loss small ; Oct. 6, total loss of Tannery buildings ; and last an alarm at Hiland Jewett's, Chestnut St., slight damage.

Two additional hydrants have been put in on Chestnut and Hanover Sts. respectively, and in the early spring another will be placed in the vicinity of Amos Bradbury's house, Hanover St., numbering in all forty-four for rental the ensuing year ; for which with other expenses about the same amount will be required as was raised last year.

In regard to the department, I will state that it is harmonious in every respect, with all its members active and faithful and the apparatus is in good condition.

GEORGE H. STOWELL,
Chief Engineer.

Reports of Trustees

OF STEVENS HIGH SCHOOL FUND.

The amount of this fund in the hands of the Trustees is the same as reported last year, \$10,000.00. The income for the year, 1890, \$600.00, has been paid into the town treasury. The Legacy bequeathed by the late Parson Stevens, \$10,000.00, remains as heretofore, and it is uncertain when the amount will be paid over to the town, as the affairs of the estate are in litigation.

A suit has been commenced by the Executors for the purpose of obtaining an order from the Court to sell the real estate to pay off the debts and legacies. We regard this as substantial progress. We can only reiterate what we have previously reported, that we have no doubt regarding the ultimate payment of the legacy with interest as the several legacies in the Will have been declared by the Court a lien upon the real estate, the value of which is much more than the amount of the legacies. Hon. Wm. M. Evarts has been employed by the committee appointed by the town, to urge in the Courts such action as shall hasten the settlement of the Stevens estate, and the payment of the legacy to the town of Claremont as was fully intended by the generous donor.

The Alden Literary Prize Fund.

consists of the real estate bequeathed by the late Mrs. Mary J. Alden, and \$976.00 deposited in the Sullivan Savings Institution. We have received during the last year for rent \$144.00, for interest \$64.78, and paid for prizes \$120.00, Water rent \$8.00, Insurance \$10.00, and for labor on the Alden monument and lot \$2.00.

Stevens High School.

REPORT OF THE COMMITTEE.

The school was established in 1868 and has been in successful operation since that time. The town has made an annual appropriation for the support of the school, in the full expectation that the legacy from the estate of Paran Stevens due about seventeen years ago would be paid. We now believe this legacy will be paid with interest, but it is impossible to tell when. The school has been very successful in the past and has graduated between two and three hundred students, many of whom are occupying prominent places as teachers and in other callings.

The school is justly the pride of our town, and the liberal manner in which the tax payers of Claremont have supported it, shows that it is near their hearts. The school has never been in better condition than at the present time. The teachers are all thoroughly qualified for their work, and are earnest and conscientious. The Principal M. C. Smart is a thorough scholar with modern methods of instruction, and his assistants, Miss Florence K. Bailey, Miss Susie Twitchell, and Miss Nellie C. Lewis are all model teachers. During the present school year Miss Jackson of Bellows Falls, Vt., has taught vocal music in the school and the progress made in this department considering the limited amount of time spent has been very marked. The committee recommend a continuance of this study, and that more time and attention be given it in the future.

Drawing should be taught systematically in the school, also more time and attention should be given to elocution. To do this requires additional teaching force and consequently an additional expenditure. The scholars of to-day do not give sufficient attention

to reading and speaking, and we hope the time, not far distant when this subject will receive the care that its importance demands.

The town is to be congratulated upon having such an institution in its midst. When we reflect upon what the school has done in the past by stimulating young ladies and gentlemen in acquiring an education, and inducing them to enter our colleges as many have, we may expect still more and greater benefits from the school in the future.

Free text books and supplies have been furnished during the past year, under the new law incurring an expense of six or seven hundred dollars, and there has also been added some valuable apparatus in the scientific department. The school has been well attended during the present year, and it is hoped that all our young ladies and gentlemen who possibly can, will avail themselves of the great advantages offered by Stevens High School.

Report of the School Board

OF THE TOWN SCHOOL DISTRICT, FOR THE
YEAR ENDING MARCH 1, 1891.

The school year has been of the usual length—33 weeks. No changes in the places of holding schools have been made during the year. It is the policy of the board to take the comfort and health of scholars, as well as economy, into account in deciding what schools may, or may not, be dispensed with. A few young scholars in a division may make it best to retain a school that, with older scholars who could easily go a longer distance to school, might properly be closed.

All deserving requests for transportation money have been complied with according to statute.

The opening of the parochial school in September decreased the attendance upon the public schools by nearly 200 pupils and threw two teachers out of employment. The intermediate scholars at the North street school were divided between the High street and the Bluff intermediates, and No. 2 primary on Broad street was closed.

No extensive repairs have been made, the painting of the house in Puckershire, within and without, being the largest. Several houses will need slight repairs during the ensuing year, and minor repairs on outbuildings and fences will be necessary. We think the 5 per cent. allowance by law will cover the expense of the repairs suggested, and we would further suggest that these small repairs annually are more economical for the town than to neglect them until a large appropriation is needed.

The free text book law assures prompt provision for the requirements of the scholars, and is working well. The handling and accounting for books and supplies is a considerable additional burden to the duties of the school board. About \$960 worth have been fur-

nished during the year, \$230 of which amount was for supplies. It is the opinion of the board that \$600 will be needed for books and supplies during the ensuing year. All the classes will then be well furnished, and a small annual appropriation for general supplies and to meet the loss by wear of books, will be sufficient. The Normal Course in spelling has been introduced. For several years no text book in spelling had been used. Butler's geographies have also been introduced, and are giving great satisfaction. The several different systems of penmanship in use have been superseded by the introduction of the Normal Course in Writing in all the schools. We are dissatisfied with the text books in grammar, and recommend the introduction of a course treating more specifically of the rules governing the use of the English language. An appended table shows in detail the distribution made of books and supplies during the year.

Instruction in vocal music was introduced in the fall term, first in the grammar and intermediate schools, and has since been extended to the primaries. The services of Miss Alice H. Jackson were secured. Her methods have the unqualified approval of the board. Excellent, even remarkable, progress has been made. We believe this branch is a valuable feature in school work, not only in itself, but as a pleasant recreation which gives the scholars zest for routine work. The exhibitions by classes in vocal music at the teachers' institute were very gratifying.

Examinations from term to term during the year indicate that good, thorough work is being done. Our corps of teachers is worthy the public confidence. Although not above criticism, their work is generally modern in method and well done. Dissatisfaction with the result, is not the rule. The schools as a whole have been in unprecedentedly good discipline. The town closes the experimental term under the new system with no reason to regret its progressive and liberal attitude five years ago.

The question of a system of double recesses has been agitated. It is not the policy of this board to outline the duty of its successors, but the subject is referred to the incoming board as one worthy careful consideration.

The roll of perfect attendance and the financial and statistical reports are appended.

It is fitting that, in conclusion, we refer to the removal by death of the late Edwin Vaughn, who was ever the warm friend of education, and who had been honorably identified with this board from its organization in 1886 to his death, December 18, 1890.
